

ISNI-VIAF Summit, The British Library, London February 2017

ISNI initiatives in libraries

Emma Rogoz, The British Library

- **Researchers**

- ORCID-ISNI search and link wizard

- Adding ISNIs to all UK doctoral theses in the EThOS service

- Adding organisation IDs to RCUK's research fund management database

- ISNIs assigned to over 220,000 authors of journal articles
- See also:Ariadne's thread
<http://www.slideshare.net/shenghuiwang/knaw>

- **Publishers**

- **UK Digital Sound recordings technical infrastructure**

- **Publisher Deposit Portal**
 - **ISNI Registration Portal**
 - **IIF API sound recordings**

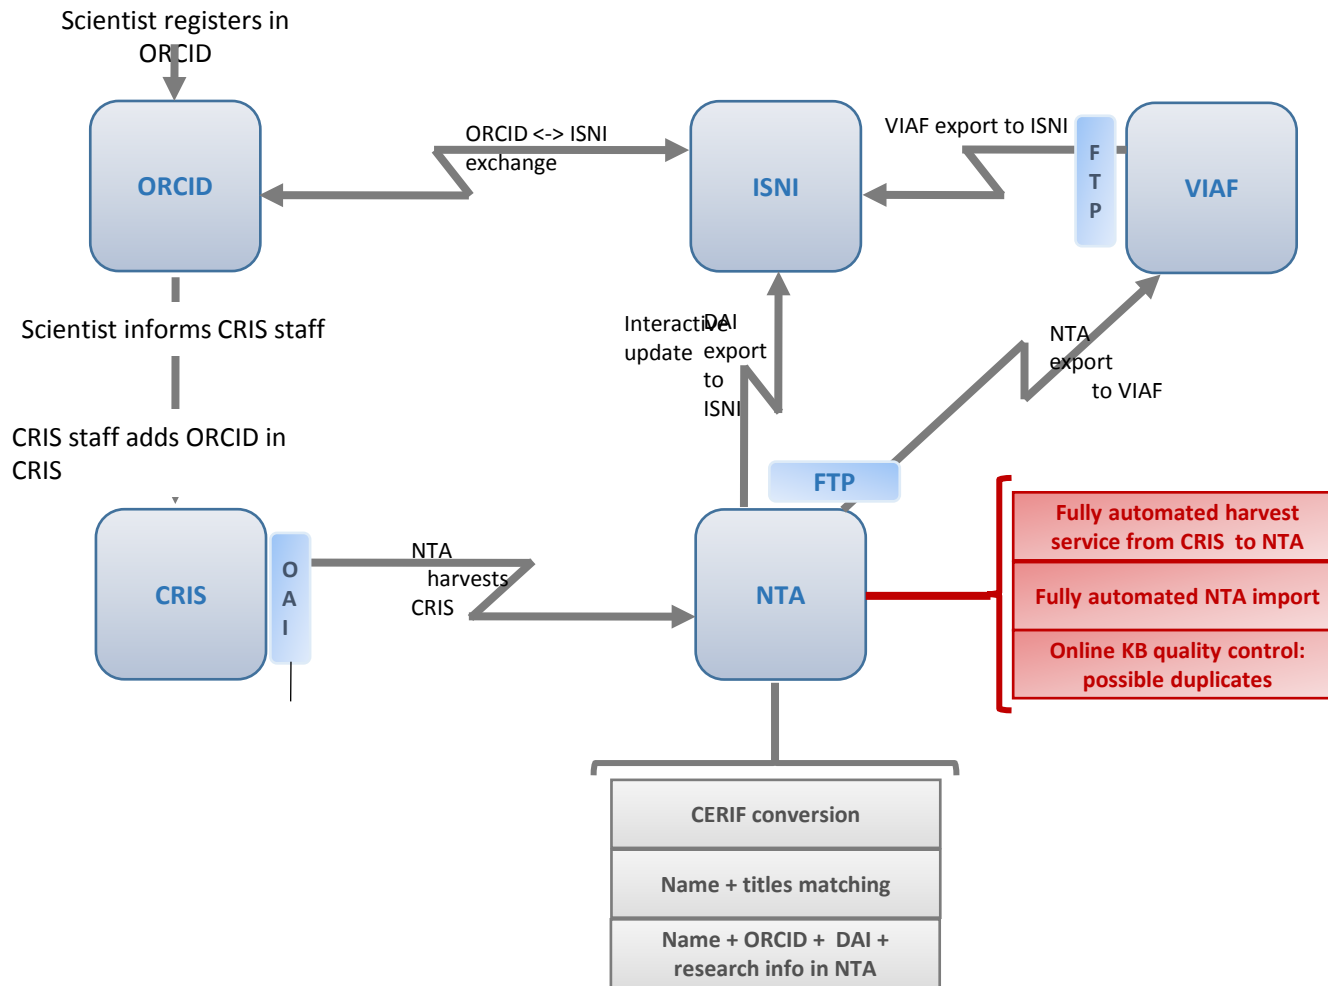

- **Publisher Licensing Society**

- **Assign ISNIs to PLS Publisher/Imprint authority file**
 - **Populate Publisher ISNIs in BNB Linked Data Platform**
 - **Link to PLS Permissions Management Service**

- **ISNI integration with Authority Control workflows**
 - **Upload of ISNIs into LC-NACO authority file**
 - June 2017
 - **Trialling ISNI/NACO workflows**
 - E-books
 - E-CIP
 - Common requirements with PCC libraries

Dutch Researchers DAI = Digital Author Identification

Need to do disambiguation on an international scale

Focus on local identities, not repeating authority work of other countries

Quality Control in ISNI; assigned status, data confidence, Quality Team and Crowd Sourcing

Smooth client interface between national database and ISNI database

ISNI is a linking hub to VIAF, NACO, Wikidata, ORCID, rights management societies

3555 records from University Institution Registry loaded to ISNI
2260 assigned ISNIs (63.6%, covering about 80% of 2016 faculty)

1021 assigned by matching (45%)

680 assigned unique name (30%)

559 assigned by enrichment (25%)

4,805 links with ISNI sources (including VIAF sources)

Outreach to Faculty and Researchers:

- Claim your ORCID
- Use ISNI2ORCID facility to help manage your publication record
- Include the ISNI for La Trobe University in your institution affiliation statement

Library is proactive in Researcher Identification

Completeness and quality of researcher profiles more consistent

Percentage of coverage much higher than with self registration alone

Links generated by ISNI; discover which researchers have international reach

ISNI is a platform for crowd sourcing and a linking hub

"It will be much easier to identify the impact of research if you can track where the research is cited using identifiers rather than trying to do text matching of names between various databases."

Geoff Payne

Deputy Director Strategy and Planning, La Trobe University Library

<https://www.oclc.org/member-stories/la-trobe.en.html>

National Library of Korea

Established Korea Standard
Identification Center
(ISBN, ISSN, ISNI)
February 2016

Korea ISNI domain registered www.isni.kr July 2016

2,262 institutional ID requests (Academic Societies)
120,000 individual requests
(September – December 2016)

Thank you
